Pieces of history, built on community

Ongoing redevelopment at St Luke's Church last year resulted in the removal of 30 150 year old pews. Rather than see them wasted or leave the area, the team at their coworking space **The Host** worked alongside local organisations including **The Maker's Guild**, **The Royal Navy, Boathouse 4** and **IBTC Portsmouth**.

Now local artisan woodworkers **Aaron** of **Aaron's Wood 'n' Stuff** and **Paul** of **Salty Sea Dog Does Wood** have given them a new lease of life as hand built, beautiful pieces of furniture, retaining their original character and ensuring that nothing is wasted.

Join us for an evening of wine and canapes to seal a piece for yourself.

**Purchases will help fund the continued redevelopment works of St Luke's Church.*
